CONSENT FOR TREATMENT – NATUROPATHIC MEDICINE

<u>Description of Naturopathic Medicine</u>: Naturopathic medicine is the treatment and prevention of diseases by natural means. Naturopathic Doctors assess the whole person, taking into consideration physical, mental, emotional, and spiritual aspects of the individual. Gentle, non-invasive techniques are generally used in order to stimulate the body's inherent healing capacity.

Your Naturopathic Doctor will take a thorough case history, do a complete physical examination as indicated, and may take blood and urine samples. If your case requires, the physical exam may include more specific examination such as respiratory, cardiac, abdominal, musculoskeletal, neurological, gynecological, rectal, prostate or genital exams.

It is important that you inform your Naturopathic Doctor immediately of any disease process that you are suffering from, and if you are on any medication, over-the counter-drugs, or supplements. If you are pregnant, suspect you are pregnant, or you are breast-feeding, please advise your Naturopathic Doctor immediately.

<u>Methods</u>, <u>Procedures and Therapeutic Approaches</u>: These may include, but are not limited to: herbs/natural medicines, psychological and/or lifestyle counseling, homeopathy, exercise prescriptions, dietary advice, therapeutic nutrition, injections, medication prescriptions, IV therapies, hydrotherapy, soft tissue, and physical manipulations.

I understand there are risks to injections including but not limited to **severe pain**, bruising, inflammation, injury, numbness, allergic reaction and infection. I do not expect the doctor to anticipate and or explain all risk and possible complications. I rely on the doctor to exercise judgment during the course of treatment with regards to any procedure. I intend this consent to cover the entire course of treatment for my present condition and any future conditions for which I seek treatment.

<u>Consent to Intravenous Therapy</u>: I consent to all intravenous therapy procedures rendered by the doctor(s) who are now or will in the future treat me while employed by or associated with this practice. I understand that there are risks to intravenous therapy including but not limited to pain, bruising, inflammation, injury, infection, allergic reaction and metabolic disturbances. Risks include but are not limited to: pain, bruising, infection, loss of consciousness from needle insertions (blood draw), topical procedures, and hydrotherapies; allergic reactions to prescribed

medications, herbs or supplements; aggravation of pre-existing symptoms; and soft tissue or bone injury from physical manipulations.

The medications, herbs, remedies and supplements should be consumed according to the instructions provided orally and in writing. Please notify the doctor listed below immediately of any unanticipated or unpleasant effects associated with the herbs, remedies, medications, or supplements.
